

Blackboard Ally is an autonomous application that **increases accessibility and attractiveness of the educational content shared through e-learning platforms.**

Ally allows for better individualization of the learning experience for students with special educational needs.

The solution integrates with Moodle, Learn Ultra and Open LMS.

INSPERA

BLACKBOARD LEARN ULTRA

BLACKBOARD COLLABORATE

BLACKBOARD ALLY FOR WEBSITES

OPEN LMS

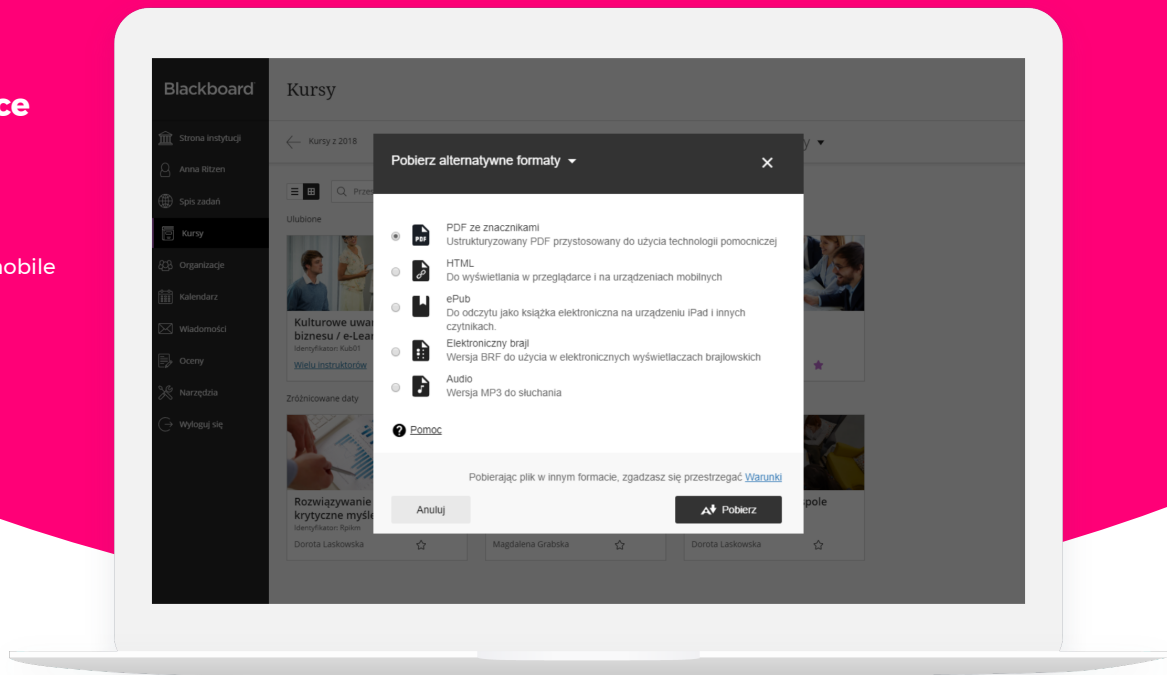

Blackboard Ally is a part of **educloud**, a new generation of IT solutions for universities concentrated on the Students and their needs.

User interface

New, modern web and mobile interface

Benefits

Teachers

- Automated analysis of levels of accessibility of the educational content
- Step-by-step support in eliminating identified issues with accessibility
- Effective outreach to students with special educational needs

Students

- Ability to download content in alternative formats (text, sound, Braille)
- Support for students with specific learning difficulties
- Elimination of barriers connected with distant education

Administration

- Automated reports on accessibility of materials prepared by individual teachers
- Support in building the culture and image of an accessible university
- Fast and simple implementation and integration process

Functionality

- Automated conversion of materials to alternative formats
- Compatibility with different e-learning platforms including Moodle
- Automated system of measuring accessibility levels based on WCAG2.0 standard
- Notification system informing teachers about accessibility issues
- Progress measurement and reporting
- Downloading materials on mobile devices – smartphones and tablets
- Functionality for students with special educational needs, including students with disabilities
- Contextual hints and information on disability allowing for better understanding of the accessibility issues
