PCG Mobile App

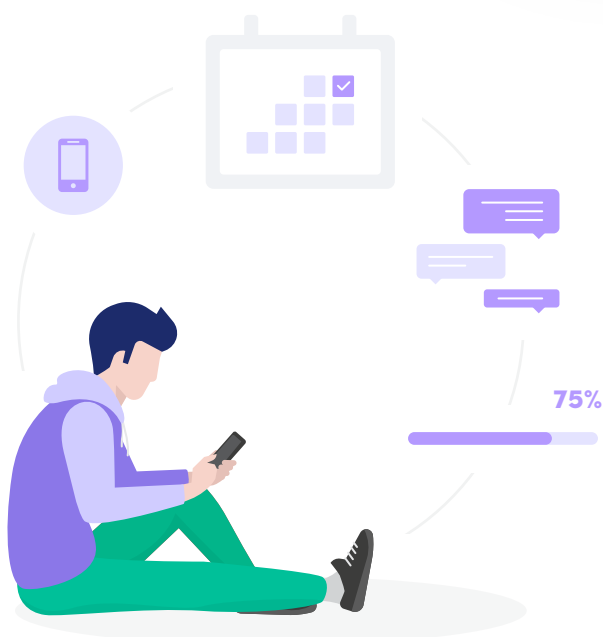

is a part of **educloud**,

a new generation of IT solutions for universities

concentrated on the Students

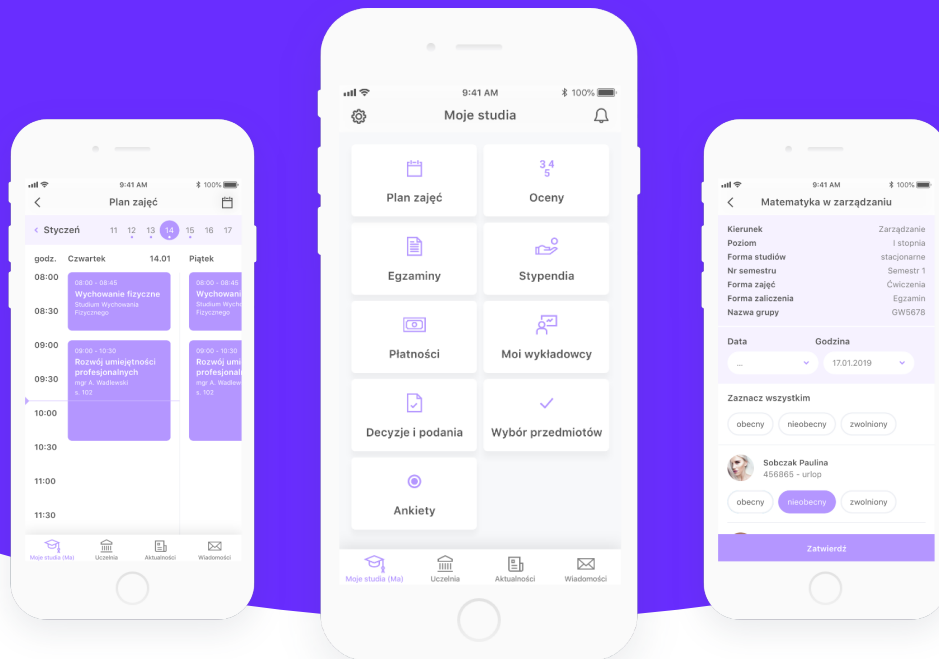

and their needs.

 **educloud**  
by PCG Academia

## User interface

consistent with the university's brand book

## Benefits

### Administration

- › Integrated workflow management of student documentation
- › Quick and easy access to students and teachers
- › Lower costs of development and maintenance in the SaaS model

### Teachers

- › Ability to type in grades or attendance and quickly access key information
- › “Push” notifications on all relevant events in the system
- › Better communication with the students and university administration

### Students

- › Easy access to all of the key information including: schedule, grades, or tuition
- › Tools for processing administrative requests with the university
- › Ability to switch between multiple programs of studies and language versions

## Functionality

- Digital registration to subjects, submission of forms and administrative requests
- Communication through e-mail and text messages or announcements
- “Push” notifications initiated from the level of the Student Information System
- Schedule integrated with the calendar on Student's phone
- Catalogue of students and teachers with pictures and search options
- Ability to switch between the programs of studies and roles (teacher/ student)
- Multiple languages and compliance with the WCAG 2.0 accessibility standard
- Look and feel of the application consistent with the university's brand book
- Tailor-made functionalities available per individual request of the university
- Integration with any Student Information System available on the market
